

Handover Proposal for The Authors

Dear Authors team,

Thank you for letting us look after your homes. We know the move to an in-house team is about regulations, not our service, and we fully support it.

We also know that taking over 24 units at once is a lot. So we would like to help make the switch smooth, with two simple options.

Option 1: One more month of management — 3,600 AED

We keep running all 24 units for one more month, just like today. At the same time, we hand everything over to your team step by step, side by side.

Since the work will move to your team during the month, we will do it at **50% off**: 150 AED per unit instead of 300 AED.

Option 2: Management + personal guidance — 15,000 AED

Everything in Option 1, plus Dave will personally train and guide your team on:

- Review management, including how to get unfair reviews removed
- Damage claims and getting paid out by the platforms
- Guest communication, from booking to check-out
- Handling complaints and difficult guest situations
- Listing optimisation and how listings really work behind the scenes
- Platform performance, rankings and Superhost status
- Cleaning, turnovers and quality checks
- Day-to-day processes, tools and checklists

And once your team has fully taken over, they get **one extra month of backend support**. Whenever they are stuck, Dave is just a message away.

Next step

Just reply with the option that works for you, and we will start the handover right away.

Warm regards,

Muneeb COO, VirtuPro
